Client Comment

"Thank you both so much for a very enjoyable day yesterday, I had a great time and the feedback I've got from people is all very complimentary about how the day was run, the activities we did and the general atmosphere"

The Brief

To create some new and innovative ideas for a long running annual event that has done most team activities. To make sure that everyone mixes with all colleagues on team building challenges whilst creating an enjoyable day.

Our Solution

A School Sports Day and kicked in while during the initial team meeting. As soon as the presentation had finished, the "Head Teacher" walked in to the main hall and explained the day's proceedings. The day consisted of teams rotating around four main areas; Chemistry, Arts and Crafts, P.E and CDT with the Finale of a School Relay with everyone watching and different people taking parts in different finalé races.

Return on Investment

A happy, relaxed and motivated team, it was both a reward and a fun day and exceptionally well received.
